Illinois Commercial Feed Laboratory Analysis - 2012

January - December 2012

FD 45-12

Illinois Department of Agriculture

FOREWORD

This bulletin contains the complete commercial feed laboratory analysis as compared with guarantees made for the year 2012. The products sampled are listed alphabetically by company with a total for each product and summary for each company. Samples that failed the analysis have each failed component listed under the product name. The numbers appearing prior to the list of failed components separate each sample. Included in the back of the book are the names and addresses of all the feed manufacturers registered in Illinois.

In the year 2012, manufacturers of animal feeds reported and paid Illinois inspection fees on approximately 4,351,724.98 tons. The department received registrations from approximately 1,332 commercial feed manufacturers.
