

**Welcome  
to VIV  
Asia**

[www.viv.net](http://www.viv.net)

the worldwide platform that covers the full supply chain from Feed to Meat

## **VIV Asia March 7-9, 2007 - Bangkok, Thailand**

The Illinois Department of Agriculture has reserved exhibit space at the upcoming VIV Asia 2007 exhibit. The VIV's feed to meat concept covers the entire animal protein chain, from primary production to finished products. It is based on the fact that all links in the chain should closely co-operate to guarantee meat quality and safety. VIV represents all parts of the meat production process.

For Illinois feed and livestock companies wanting to gain access to the Asian market this is the perfect opportunity. The Illinois Department of Agriculture has participated in several the VIV exhibits with excellent results. For more information on VIV Asia visit their website at: [www.viv.net](http://www.viv.net). To participate in the Illinois Department of Agriculture pavilion contact Terry English at: telephone 217-785-0115 or [terry.english@illinois.gov](mailto:terry.english@illinois.gov).
